Poole, Alan and Frank Gill, eds. Various years. The Sibley guide to birds of North America (BNA in worksheets). This set of fascicles, one account per species, is available in the Fern Zimmerman Library at Audubon House for use there. It is also available on-line by subscription (search for "Birds of North America" and it should come up first). The Cornell Lab. of Ornithology is continually updating the on-line version and enhancing it with audio and video clips.
